GLOW IN THE DARK SHOTS

Technical Data:

- Dimensions (Base x Height): 35*70 mm
- Volume: 71 ml
- Total Weight: 23.6 g
- Glass: Polystyrene and special glue
- Electronic: PCB, lithium batteries, LED...

- Standards: ROHS, food compliant
- Storage life: 5 years
- Colours available:
 - *red / yellow / orange
 - *blue / white / green / pink

Use:

Simply fill the glass up with your drink and it will glow and brighten up your night. When the glass is empty, the light goes off. The glass can be used several times until the battery is exhausted and will provide a minimum illumination time of 12 hours and up to 30 hours.

Suggestions:

In order to maximise the effect, make sure you use the glass in a dim/dark environment. Arrange the glasses on trays and fill them up with Champagne when your guests are just arriving. You can even make a fountain of flutes, which will light up from the top to the bottom whilst you fill up the fountain. The flutes can be used for all types of parties and events. It can also be used as an incentive or promotional item. The flutes can be customised in many ways (stickers, screen printing or engraving).

Recommendations:

This product uses lithium batteries, which are an integral part of the product and cannot be removed from the glass. This is compliant with regulations for products containing batteries or accumulators. When the batteries are exhausted, the product should be disposed of safely. Do not attempt to open or break the product for the removal of the batteries or electronic components. Do not allow the product to be exposed to high temperatures, intensive sunlight or fire. Do not wash the glass in a dishwasher. It is recommended to wash the glass by hand, using lukewarm water and mild washing up liquid, and dry before storage.
